

## Protection Cover

# Model PC-3

## SPECIFICATION

The 'Aqualarm' PC-3 protection cover offers mechanical protection to the 'Aqualarm' range of point detectors. It is fitted directly over the body of the point detector, allowing the 3-pin plug to be connected from above (Detector supplied separately). It is made from mild steel; powder coated (RAL 2004), and has four fixing points to allow it to be fixed to the floor slab.
